Landscaping & Renovations

LANDSCAPING NEWSLETTER: March 2017

Hello, and Happy Spring!

After a dreary and tumultuous winter, we are all looking forward to the warmer weather ahead and the beginning of Spring. I just wanted to say hello and let you know of some of our offers we have for you this year. We are looking forward to seeing everyone soon, and turning your backyard dreams into reality!

Sincerely,

Christine

SEASONAL PLANTERS

Give your front entrance a facelift every season! This is a simple way to have some variety throughout the year, and to have beautiful curb appeal no matter what the season. We offer planters for Spring, Summer, Fall and Winter, all with plants and ornaments that thrive throughout each particular season. We install them for both our residential and our commercial clients, and have had nothing but positive feedback for them. It really is a simple way to enhance your property and get the most out of each season!

RAISED VEGETABLE GARDENS & CONTAINER GARDENS

Wouldn't you love to grow your own vegetables? Don't think you have enough room? Think again! We have been installing beautiful raised planter beds for our clients that can fit in convenient areas of your yard. With beautiful designs that captivate your eyes and not just your taste buds. It's a great way to cultivate your own food at home, and the best part of all, you can ensure it's free of pesticides!

WATER FEATURES

We have a variety of different clients at Inside Out Landscaping...those who LOVE their pond or water feature and those who don't realize that they NEED one! Having the soothing sounds of water in your backyard brings a new level of tranquility and peace that you wouldn't get unless to go to a nature spa or leave the city. There are numerous studies about the health effects of running water and its calming effect on the body, and mind. Just think: having your very own bubbling fountain beside your patio as you unwind from a long day at work, or your own custom made pondless waterfall that flows down the side of your yard, surrounded by lush green gardens, attracting numerous birds and wildlife to drink from it. These could all be yours! Here is a link to our Dreambook to give you some inspired ideas!
